

# Outdoor Rug Collection

CARE NOTES | REV 00

## CLEAN

Vacuum your rug regularly. Ensure the cleaning bristle brushes are either disengaged or set to bare floor. The rug can be washed with a hose with cold water.

## SPILLS

Act quickly with spills. Absorb the spill with a clean white cloth or paper towel and a mild soap solution. Never rub the surface. Consult a commercial cleaning specialist for removal of stubborn stains.

## NOTE

The rug can withstand outdoor use during the summer but should not be left outside in the winter or in difficult weather conditions. It is important that the rug is occasionally thoroughly dried, otherwise the fibers in the rug may deteriorate.

Placing heavy or sharp objects on the rug surface for long periods of time can cause permanent surface indentations. For snags in the fabric, tuck loose threads into fabric or carefully push to reverse side. Never pull out or cut off loose threads.
